

DepthQ®

3D

PASSIVE POLARIZATION FOR 3D PROJECTORS

**Fast. Stunning. Future-Proof.**

- ✓ Simple to install
- ✓ Solid-state switch
- ✓ NEW patented technology
- ✓ High Frame Rate (HFR) ready
- ✓ Hollywood approved

#### DEPTHQ® ADVANTAGES

Fast  
Bright  
Low-Ghost  
Three Year Warranty  
Low Cost/Maintenance

Newly patented technology makes the DepthQ® Polarization Modulator the world's fastest polarization switch for 3D digital projection.

With a powered, symmetrical 50 microsecond switching time between the eyes, DepthQ® easily ensures bright, low-crosstalk operation - even at the upcoming 3D HFR (high frame rate) targets of 192 FPS, 240 FPS...and beyond.

Paired with projectors up to 30K Lumens, DepthQ® provides a spectacular 3D experience for silver screens up to 17.7m (58ft).

*Come see why over 400 theaters around the world have enthusiastically chosen DepthQ®*
