# HD 3D Projection

- Single-Lens 3D Projector
- Polarization Modulator
- Lightweight Glasses
- eCinemas small or large

*High-quality, uncomplicated stereoscopic 3D has arrived!  
It's never been **this easy** to deliver the excitement of the  
third dimension to your guests...DON'T MISS OUT!*

# DepthQ<sup>®</sup>

STEREOSCOPIC

Bright. Clear. Precision HDs3D.

by **Lightspeed**  
DESIGN

**Lightspeed Design, Inc.** has been a cutting-edge leader in developing and providing stereoscopic HD 3D projection, video software, film production, filmmaking technologies and custom 3D installations for seventeen years. DepthQ<sup>®</sup> is Lightspeed's technology trademark under which we offer the DepthQ<sup>®</sup> HDs3D series of stereoscopic projectors, the DepthQ<sup>®</sup> family of HD 3D software and the new DepthQ<sup>®</sup> Polarization Modulator.

## The DepthQ<sup>®</sup> HDs3D-1 Stereoscopic Video Projector

The DepthQ<sup>®</sup> HDs3D-1 is our newest WXGA stereoscopic 3D projector and provides 3,500 ANSI lumens of rock-solid 120Hz stereo 3D at 1280x720 resolution. These exceptionally bright, professional-level 3D projectors utilize the latest Texas Instruments DLP<sup>®</sup> and BrilliantColor™ technologies - for stunning colors with a 2100:1 contrast ratio.

## The DepthQ<sup>®</sup> Polarization Modulator

The DepthQ<sup>®</sup> Polarization Modulator electronically switches the polarization orientation of light passing through it. In combination with a polarization-preserving screen and a single-lens stereoscopic 3D projector, the modulator enables high-brightness, low-ghost viewing using lightweight & comfortable passive 3D eyewear.

## DepthQ<sup>®</sup> Stereoscopic 3D Production

Lightspeed's production pipeline benefits from advanced filmmaking technologies that have been developed and honed over the past 17 years producing stereo 3D content. DepthQ<sup>®</sup> Stereoscopic is a mature, live-action 3D filmmaking process that maximizes creativity, efficiency and accuracy from acquisition through post. Combined with our knowledge and experience in 3D filmmaking, it allows us to produce comfortable, visually impactful, cost-effective, GREAT 3D!

**DepthQ<sup>®</sup> Stereoscopic = GREAT 3D**
