Installation Guide for DepthQ[®] VR Player 2016

depthq.com

Part 1: Oculus Software

Oculus Software

If you have not already, follow the instructions included with your Oculus Rift to install all the necessary Oculus hardware and software.

Note: A dedicated Media solid state harddrive (SSD) is required for full framerate playback and is strongly recommended.

Enabling Unknown Sources

1 - In the Oculus software, click on the gear icon and select Settings.

2 – Click on General

 Activate for all users (works with administrator rights only) Activate only for current user 		
	OK Cancel	

8 - Complete. Congratulation, the software is now activated.

Part 4: Tips

Be sure you have all the Oculus hardware connected and turned on, and that you have enabled the 'Unknown Sources' mode in the Oculus Home settings (see the DepthQ[®]VR Player Manual for further information).

After launching the DepthQ[®]VR Player, with your Oculus VR headset removed, use File | Open File in the player to browse to the movie file's location and select it. It will begin playing as soon as it has loaded.

Keyboard Shortcuts

Playing your "most recent" movie is as simple as left-clicking in the black media playback area.

Also, you can toggle the Loop setting on and off by pressing the "L" default key shortcut, or toggle between "Pause" and "Play" using the "P" key. Check out what other keyboard shortcuts are available by pressing "K".

Controller Shortcuts

Defaults:

- Y (orange) jump to previous playlist movie
- B (red) play/pause
- A (green) jump to next playlist movie
- X (blue) exit

Part 5: Reference Manual

Continue by reading the DepthQ VR Player Reference Manual which was installed along with the software. You can find a link to the manual in the DepthQ section of the Windows start menu.

Note: You will need a PDF viewing program to open the reference manual. If you don't want to use Adobe Acrobat, we recommend trying out SumatraPDF or Foxit Reader.

You can always view the most current version of the <u>DepthQ VR Player Reference Guide</u> at the DepthQ website.
